Video	Audio
<p>(Scene 1)</p> <p>INT. DORM ROOM - NIGHT</p> <p>A focused student types at a clean dual-monitor desk. He hits Enter.</p>	<p>The keyboard is being used and has very clicky sounding keys.</p> <p>Music: Fade in soft lo-fi bed under. Plays throughout first scene.</p> <p>A final loud keyboard press is then heard.</p>
<p>He leans back while grabbing his phone and scrolls videos.</p>	<p>SOCIAL SCROLL SFX - Then followed by some chuckling.</p>
<p>He glances and sits up setting his phone down, then cuts to an over the shoulder shot where the screen on the left is an AI site and on the right screen is the student's homework. The student then grabs the mouse.</p> <p>The student happily grabs his headset and controller.</p> <p>FADE OUT.</p>	<p>Student: "Submit and chill time."</p> <p>The audio fades out with scene.</p>
<p>TEXT: 15 YEARS LATER. FADE IN.</p>	
<p>(Scene 2)</p> <p>EXT. HOUSE - DAY.</p> <p>There's a mother on the phone. She looks frustrated.</p> <p>Scene cuts to a shot of a staircase going down into darkness.</p>	<p>Woman: "He had so much potential. I don't know why no one will hire him."</p>
<p>INT. BASEMENT</p> <p>The same student, now older, is in a dark basement with the same computer setup, but the desk is unorganized and disgusting. Trash is strewn everywhere and it is not inviting.</p>	<p>A controller for a game system is heard being pressed furiously, and we hear grunts of frustration while gunshots from the gameplay are going off.</p>

He hurls the controller and is very upset.

FADE OUT

TEXT: DON'T RELY ON AI. JUST LEARN.

A loud crunch is heard followed by some rattling.

Man: "If only I'd actually learned, I'd have a job."

"Don't rely on AI, just learn."
